Energy Recovery Reports 47% Quarterly Product Revenue Growth in Third Quarter

SAN LEANDRO, Calif. - November 2, 2022 - Energy Recovery, Inc. (Nasdaq:ERII) (“Energy Recovery” or the “Company”) today announced its financial results for the third quarter ended September 30, 2022.

Third Quarter Highlights:

- Revenue of \$30.5 million. Full year revenue guidance of \$121–\$125 million, or 16%–20% year-on-year growth, within gross margin expectations guided last year.
- Income from operations of \$4.9 million and adjusted income from operations⁽¹⁾ of \$6.8 million.
- Net income of \$4.8 million, or \$0.08 per share, and adjusted net income per share⁽¹⁾ of \$0.12.
- Adjusted EBITDA⁽¹⁾ of \$7.7 million.
- Cash and investments of \$86.6 million, which include cash, cash equivalents, and short-term and long-term investments.
- We successfully installed and commissioned our PX G1300[™] fully integrated with the CO₂ refrigeration rack for Vallarta Supermarkets in California.
- We released our third annual Environmental, Social, and Governance (“ESG”) report which can be found on our website and using this link: <https://ir.energyrecovery.com/websites/energyrecovery/English/6500/esg-at-energy-recovery.html#>.

Robert Mao, Chairman, President and CEO, commented on the financial results, “We continue to make important strides in all three of our businesses, and believe we have the right products and strategy to deliver on our goals despite the challenging macro-economic environment. In our CO₂ refrigeration business, we have gone live with the installation of our PX G1300 with Vallarta Supermarkets in California. This is the second installation in a grocery store for the PX G1300, and we are collecting valuable data and proving the efficiency gains the PX G1300 delivers in CO₂ refrigeration racks.”

Mr. Mao added, “In addition, the reference designs published on our website have piqued the interest of additional commercial and industrial refrigeration manufacturers. As a result of this, we will be shipping PX G1300 units to various customers for installation in the later part of this year, or early 2023. These units will be used for initial deployments in both commercial and industrial refrigeration applications.”

“Sales in our industrial wastewater business continue to grow and we should exceed our full-year guidance of \$3.0 million. In our water business we launched the PX Q400 pressure exchanger, which is the next evolution of our PX[®] Pressure Exchanger[®] technology. This new addition to our PX offering is our most efficient PX available for use in both SWRO and industrial wastewater applications.”

Financial Highlights

Third Quarter (Quarter to Date)

	GAAP			Non-GAAP ⁽¹⁾		
	Q3 2022	Q3 2021	vs. Q3 2021	Q3 2022	Q3 2021	vs. Q3 2021

⁽¹⁾ "Adjusted income from operations," "Adjusted net income per share," "Free cash flow" and "Adjusted EBITDA" are non-GAAP financial measures. Refer to the sections "Use of Non-GAAP Financial Measures" and "Reconciliation of Non-GAAP Financial Measures."

Forward-Looking Statements

Certain matters discussed in this press release and on the conference call are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including our expectations on full year revenue and gross margin guidance; our belief that the PX Q400 is the highest performing PX available for SWRO and industrial wastewater facilities; and our belief that the Company has the right products and strategy to survive the macro-economic environment and our goals. These forward-looking statements are based on information currently available to us and on management's beliefs, assumptions, estimates, or projections and are not guarantees of future events or results. Potential risks and uncertainties include any other factors that may have been discussed herein regarding the risks and uncertainties of the Company's business, and the risks discussed under "Risk Factors" in the Company's Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") for the year ended December 31, 2021, as well as other reports filed by the Company with the SEC from time to time. Because such forward-looking statements involve risks and uncertainties, the Company's actual results may differ materially from the predictions in these forward-looking statements. All forward-looking statements are made as of today, and the Company assumes no obligation to update such statements.

Use of Non-GAAP Financial Measures

This press release includes certain non-GAAP financial measures, including adjusted income from operations, adjusted net income per share, adjusted EBITDA and free cash flow. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either exclude or include amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles in the United States of America, or GAAP. These non-GAAP financial measures do not reflect a comprehensive system of accounting, differ from GAAP measures with the same captions, and may differ from non-GAAP financial measures with the same or similar captions that are used by other companies. As such, these non-GAAP measures should be considered as a supplement to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. The Company uses these non-GAAP financial measures to analyze its operating performance and future prospects, develop internal budgets and financial goals, and to facilitate period-to-period comparisons. The Company believes these non-GAAP financial measures reflect an additional way of viewing aspects of its operations that, when viewed with its GAAP results, provide a more complete understanding of factors and trends affecting its business.

Notes to the Third Quarter and Year to Date 2022 Financial Results

- *Adjusted income from operations* is a non-GAAP financial measure that the Company defines as income from operations which excludes i) share-based compensation; and ii) non-recurring costs, such as severance costs and accelerated depreciation.
- *Adjusted net income per share* is a non-GAAP financial measure that the Company defines as net income, which excludes i) share-based compensation; and ii) non-recurring costs, such as severance costs and accelerated depreciation, and iii) the applicable tax effect of the excluded items including the share-based compensation discrete tax item, divided by basic shares outstanding.
- *Adjusted EBITDA* is a non-GAAP financial measure that the Company defines as net income which excludes i) depreciation and amortization; ii) share-based compensation; iii) non-recurring costs, such as severance costs; iv) other income, net, such as interest income and other non-operating (expense) income, net; and v) provision for (benefit from) income taxes.
- *Free cash flow* is a non-GAAP financial measure that the Company defines as net cash provided by (used in) operating activities less capital expenditures.

Conference Call to Discuss Third Quarter 2022 Financial Results

LIVE CONFERENCE CALL:

Wednesday, November 2, 2022, 2:00 PM PT / 5:00 PM ET

Listen-only, US / Canada Toll-Free: +1 (877) 709-8150

Listen-only, Local / International Toll: +1 (201) 689-8354

CONFERENCE CALL REPLAY:

Expiration: Friday, December 2, 2022

US / Canada Toll-Free: +1 (877) 660-6853

Local / International Toll: +1 (201) 612-7415

Access code: 13732700

Investors may access the live call and the replay (approximately three hours after the live call concludes) over the internet at: ir.energyrecovery.com/websites/energyrecover/English/2200/calendar.html

Disclosure Information

Energy Recovery uses the investor relations section on its website as means of complying with its disclosure obligations under Regulation FD. Accordingly, investors should monitor Energy Recovery's investor relations website in addition to following Energy Recovery's press releases, SEC filings, and public conference calls and webcasts.

About Energy Recovery

Energy Recovery, Inc., creates technologies that solve complex challenges for commercial and industrial fluid-flow markets worldwide. Building on an innovative pressure exchanger technology platform, they design and manufacture solutions that make commercial and industrial processes more efficient and sustainable. What began as a game-changing invention for desalination has grown into a global business accelerating the environmental sustainability of customers' operations in multiple industries. Headquartered in the San Francisco Bay Area, Energy Recovery has manufacturing and research and development facilities across California and Texas with sales and on-site technical support available globally.
