SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2019

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-34112

Energy Recovery, Inc.

(Exact Name of Registrant as Specified in its Charter)

Delaware

01-0616867

(State or Other Jurisdiction of Incorporation)

(I.R.S. Employer Identification No.)

1717 Doolittle Drive, San Leandro, CA 94577

(Address of Principal Executive Offices) (Zip Code)

(510) 483-7370

(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common	ERII	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically, every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2). Yes No

As of October 25, 2019, there were 55,115,628 shares of the registrant's common stock outstanding.

ENERGY RECOVERY, INC.

ENERGY RECOVERY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 — Description of Business and Significant Accounting Policies

Energy Recovery, Inc. and its wholly-owned subsidiaries (the “Company” or “Energy Recovery”) is an energy solutions provider to industrial fluid flow markets worldwide. The Company’s core competencies are fluid dynamics and advanced material science. The Company’s products make industrial processes more operationally and capital expenditure efficient. The Company’s solutions convert wasted pressure energy into a reusable asset and preserve or eliminate pumping technology in hostile processing environments. The Company’s solutions are marketed and sold in fluid flow markets such as water, oil & gas and chemical processing under the trademarks ERI®, PX®, Pressure Exchanger®, PX Pressure Exchanger®, VorTeq™, MTeq™, IsoBoost®, IsoGen®, AT™ and AquaBold™. The Company owns, manufactures and/or develops its solutions, in whole or in part, in the United States of America (“U.S.”).

Basis of Presentation

The Company’s Condensed Consolidated Financial Statements include the accounts of Energy Recovery, Inc. and its wholly-owned subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation.

The accompanying Condensed Consolidated Financial Statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in the financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) have been condensed or omitted pursuant to such rules and regulations. The December 31, 2018 Condensed Consolidated Balance Sheet was derived from audited financial statements and may not include all disclosures required by GAAP; however, the Company believes that the disclosures are adequate to make the information presented not misleading. Certain prior period amounts have been reclassified in the balance sheet and footnotes to conform to the current period presentation. The September 30, 2019 unaudited Condensed Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and the notes thereto for the fiscal year ended December 31, 2018 included in the Company’s Annual Report on Form 10-K filed with the SEC on March 7, 2019, as amended on March 12, 2019.

In the opinion of management, all adjustments consisting of normal recurring adjustments that are necessary to present fairly the financial position, results of operations and cash flows for the interim periods have been made. The results of operations for the interim periods are not necessarily indicative of the operating results for the full fiscal year or any future periods.

Use of Estimates

The preparation of Condensed Consolidated Financial Statements, in conformity with U.S. GAAP, requires the Company’s management to make judgments, assumptions and estimates that affect the amounts reported in the Condensed Consolidated Financial Statements and accompanying notes.

The accounting policies that reflect the Company’s more significant estimates and judgments, which the Company believes are the most critical to aid in fully understanding and evaluating its reported financial results, are revenue recognition, capitalization of research and development assets, valuation of stock options, valuation and impairment of goodwill and acquired intangible assets, valuation adjustments for excess and obsolete inventory, deferred taxes and valuation allowances on deferred tax assets and evaluation and measurement of contingencies. Those estimates could change and, as a result, actual results could differ materially from those estimates.

ENERGY RECOVERY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Recent Accounting Pronouncements**Recently Adopted Accounting Pronouncements**

In August 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2018-15 (“ASU 2018-15”) *Intangibles - Goodwill and Other - Internal-Use Software (Topic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract*. ASU 2018-15 aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The updated guidance is effective for annual periods beginning after December 15, 2019 and interim periods within those fiscal years. Early adoption is permitted. The Company elected to early adopt ASU 2018-15 for the period beginning in the second quarter of 2019, applying the guidance under ASU 2018-15 prospectively. During the three and nine months ended September 30, 2019, the Company deferred related implementation costs of \$0.6 million and expect to defer additional related implementation costs of approximately \$0.3 million in the fourth quarter of 2019.

Recently Issued Accounting Pronouncements Not Yet Adopted

In the nine months ended September 30, 2019, there were no accounting pronouncements issued that were not adopted by the Company that would have a material effect on the Company’s reporting of results of operations.

Note 2 — Revenue

The Company’s 2018 Annual Report on Form 10-K includes a description of certain significant accounting policies, including those with respect to revenue recognition. There have been no material changes to our significant accounting policies described in our 2018 Annual Report on Form 10-K.

Disaggregation of Revenue

The following tables present the Company’s revenues disaggregated by geography based on the “shipped to” addresses of the Company’s customers and by major product/service line. Sales and usage-based taxes are excluded from revenues.

2021	5,715
2022	661
2023 and thereafter	5,031
Total performance obligation	<u>\$ 35,742</u>

Note 3 — Earnings per Share

Net income for the reported period is divided by the weighted average number of common shares outstanding during the reported period to calculate basic earnings per common share. Basic earnings per share exclude any dilutive effects of stock options and restricted stock units (“RSUs”).

Diluted earnings per common share reflects the potential dilution that would occur if outstanding stock options to purchase common stock were exercised for shares of common stock (using the treasury stock method) and the shares of common stock underlying each outstanding RSU were issued (collectively referred to as “stock awards”). Certain shares of common stock issuable under stock options and RSUs have been omitted from the diluted earnings per share calculations because their inclusion is considered anti-dilutive.

The following table presents the computation of basic and diluted earnings per share.

Note 4 — Balance Sheet Information**Cash, Cash Equivalents and Restricted Cash**

The Company's Condensed Consolidated Statement of Cash Flows explains the change in the total of cash, cash equivalents and restricted cash. The following table presents a reconciliation of cash, cash equivalents and restricted cash reported within the Condensed Consolidated Balance Sheets that sum to the total of such amounts presented. Short-term restricted cash is included in cash, cash equivalents and restricted cash, and non-current restricted cash is included in other assets, non-current on the Condensed Consolidated Balance Sheets.

	September 30, 2019	December 31, 2018
	<i>(In thousands)</i>	
Cash and cash equivalents	\$ 29,696	\$ 21,955
Restricted cash, current	—	97
Restricted cash, non-current	101	86
Total cash, cash equivalents and restricted cash	<u>\$ 29,797</u>	<u>\$ 22,138</u>

The Company pledged cash in connection with certain stand-by letters of credit and Company credit cards. The Company deposited corresponding amounts into restricted accounts at several financial institutions.

Inventories

Inventories are stated at the lower of cost or net realizable value (using the first-in, first-out method). The following table presents inventories by category.

	September 30, 2019	December 31, 2018
	<i>(In thousands)</i>	
Raw materials	\$ 3,947	\$ 2,238
Work in process	2,135	2,689
Finished goods	2,895	2,211
Inventories, net	<u>\$ 8,977</u>	<u>\$ 7,138</u>

Valuation adjustments for excess and obsolete inventory reflected as a reduction of inventory at September 30, 2019 and December 31, 2018 were \$0.5 million and \$0.7 million, respectively.

Accrued Expenses and Other Current Liabilities

The following table presents accrued expenses and other current liabilities by category.

	September 30, 2019	December 31, 2018
	<i>(In thousands)</i>	
Payroll and commissions payable	\$ 5,273	\$ 5,843
Accrued warranty reserve	633	478
Other accrued expenses and current liabilities	2,613	2,176
Total accrued expenses and other current liabilities	<u>\$ 8,519</u>	<u>\$ 8,497</u>

Note 5 — Investments and Fair Value Measurements

The following table presents the Company's cash, cash equivalents, and marketable securities in the form of short-term investments and long-term investments.

	September 30, 2019	December 31, 2018
<i>(In thousands)</i>		
Cash and cash equivalents	\$ 29,696	\$ 21,955
Short-term investments	59,905	73,338
Long-term investments	7,549	1,269
Total cash, cash equivalents and marketable securities	<u>\$ 97,150</u>	<u>\$ 96,562</u>

As of September 30, 2019 and December 31, 2018, there were no available-for-sale investments reported in cash and cash equivalents on the Condensed Consolidated Balance Sheets.

Available-for-Sale Investments

The Company's short-term and long-term investments are all classified as available-for-sale. As of September 30, 2019 and December 31, 2018, all available-for-sale investments were either classified as short-term with maturities less than 12 months or long-term with maturities over 12 months. The Company generally holds available-for-sale investments until maturity; however, from time-to-time, the Company may elect to sell certain available-for-sale investments prior to maturity. During the nine months ended September 30, 2019, sales of available-for-sale investments were \$3.5 million. During the nine months ended September 30, 2018, there were no sales of available-for-sale investments.

The following tables present available-for-sale investments as of September 30, 2019 and December 31, 2018.

Total available-for-sale investments	\$ 67,380	\$ 67,454	\$ 74,695	\$ 74,607

Fair Value of Financial Instruments

Financial assets and liabilities that are remeasured and reported at fair value at each reporting period are classified and disclosed in one of the following three levels:

Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 — Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable; and

Level 3 — Unobservable inputs in which little or no market activity exists, therefore requiring an entity to develop its own assumptions that market participants would use in pricing.

For the Company's investments in available-for-sale securities, if quoted prices in active markets for identical investments are not available to determine fair value (Level 1), then the Company uses quoted prices for similar assets or inputs other than quoted prices that are observable either directly or indirectly (Level 2). The investments included in Level 2 consist of corporate notes and bonds and U.S. Treasury securities.

ENERGY RECOVERY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Intangible assets, net	\$ 171	\$ 640

Note 7 — Lines of Credit**Loan and Pledge Agreement**

On January 27, 2017, the Company entered into a loan and pledge agreement (the "Loan and Pledge Agreement") with a financial institution. The Loan and Pledge Agreement provides for a committed revolving credit line of \$16.0 million and an uncommitted revolving credit line of \$4.0 million. Under the Loan and Pledge Agreement, the Company is allowed to borrow and request letters of credit against the eligible assets held from time to time in the pledged account maintained with the financial institution. Stand-by letters of credit ("SBLCs") are secured by pledged U.S. investments and there is no cash collateral balance required. SBLCs are deducted from the total revolving credit line and are subject to fees, in an amount equal to 0.7% per annum of the face amount of the letter of credit, that are payable quarterly and are non-refundable. Revolving loans incur interest per annum at a base rate equal to the LIBOR rate plus 1.5%. Any default bears the aforementioned interest rate plus an additional 2%. The unused portion of the credit line is subject to a fee equal to the product of 0.2% per annum multiplied by the difference, if positive, between \$16 million and the average daily balance of all advances under the committed facility plus aggregate average daily undrawn amounts of all letters of credit issued under the committed facility during the immediately preceding month or portion thereof.

The Loan and Pledge Agreement was amended on March 17, 2017 to increase the amount of allowable SBLCs held with other financial institutions from \$4.1 million to \$5.1 million.

ENERGY RECOVERY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Loan and Pledge Agreement was further amended on March 30, 2018 to extend the termination date of the Loan and Pledge Agreement from March 31, 2018 to March 31, 2020. The covenants of the Loan and Pledge Agreement were further amended on August 24, 2018 to permit the Company to incur indebtedness owed to a foreign subsidiary in an aggregate amount not to exceed \$66.0 million, which amount is subordinated to any amounts outstanding under the Loan and Pledge Agreement.

The Loan and Pledge Agreement was subsequently amended on April 8, 2019 to extend the term of any Letter of Credit to not exceed two years and to permit the Company to issue SBLCs up to one year past the expiration date of the loan agreement. On April 8, 2019 and on April 23, 2019, the Loan and Pledge Agreement was amended to clarify certain additional terms.

The Loan and Pledge Agreement was again amended on June 17, 2019 to extend the termination date to June 30, 2022 and limit the term of any SBLC to three years. The Loan and Pledge Agreement was amended to clarify certain additional terms.

As of September 30, 2019 and December 31, 2018, no debt was outstanding under the Loan and Pledge Agreement.

Stand-By Letters of Credit

The outstanding amounts of SBLCs were \$11.2 million and \$8.8 million at September 30, 2019 and December 31, 2018, respectively.

Note 8 — Commitments and Contingencies

Operating Lease Obligations

The Company leases office facilities and equipment under operating leases that expire on various dates through 2028.

On January 10, 2019, the Company entered into an industrial lease agreement, that is expected to commence in the fourth quarter of 2019, pursuant to which the Company has leased approximately 25,200 square feet of property to construct office and warehouse space and approximately 4.5 acres of yard space in Katy, Texas (the "Texas Lease"), for a new commercial development center for oil and gas field testing and training. Once commenced, the Company's monthly base rent obligation will be approximately \$0.3 million with increases of three percent annually thereafter, totaling \$4.0 million over the term of the lease. The initial term of the Texas Lease is one hundred twenty (120) months after the commencement date, and the Company has two options to extend the Texas Lease by an additional five-year term, which must be exercised by written notice at least six months prior to the end of the relevant term.

The following table presents the maturities of the Company's lease liabilities as of September 30, 2019.

	Lease Amounts⁽¹⁾
	<i>(In thousands)</i>
Year:	
2019 (remaining three months)	\$ 460
2020	1,855
2021	1,653
2022	1,812

Release of accrual related to expired warranties	(48)	(50)	(131)	(134)
Warranty reserve balance, end of period	\$ 633	\$ 409	\$ 633	\$ 409

Purchase Obligations

The Company has purchase order arrangements with its vendors for which the Company has not received the related goods or services as of September 30, 2019. These arrangements are subject to change based on the Company's sales demand forecasts. The Company has the right to cancel the arrangements prior to the date of delivery. The purchase order arrangements are related to various raw materials and components parts, as well as for capital equipment. As of September 30, 2019, the Company had approximately \$8.6 million of such open cancellable purchase order arrangements.

Guarantees

The Company enters into indemnification provisions under its agreements with other companies in the ordinary course of business, typically with its customers. Under these provisions, the Company generally indemnifies and holds harmless the indemnified party for losses suffered or incurred by the indemnified party as a result of the Company's activities, generally limited to personal injury and property damage caused by the Company's employees at a customer's plant, and in proportion to the employee's percentage of fault for the accident. Damages incurred for these indemnifications would be covered by the Company's general liability insurance to the extent provided by the policy limitations. The Company has not incurred material costs to defend lawsuits or settle claims related to these indemnification agreements. As a result, the estimated valuation of the potential liability arising from these agreements is not material. Accordingly, the Company recorded no liabilities for these agreements as of September 30, 2019 and December 31, 2018.

In certain cases, the Company issues warranty and product performance guarantees to its customers for amounts generally equal to 10% or less of the total sales agreement to endorse the execution of product delivery and to the warranty of design work, fabrication and operating performance of our devices. These guarantees are generally SBLCs that typically remain in place in general for periods of 24 to 36 months. See Note 7, "Lines of Credit," for information related to SBLCs.

Litigation

The Company is named in and subject to various proceedings and claims in connection with its business. The outcome of matters the Company has been, and currently are, involved in cannot be determined at this time, and the results cannot be predicted with certainty. There can be no assurance that these matters will not have a material adverse effect on the Company's results of operations in any future period, and a significant judgment could have a material impact on the Company's financial condition, results of operations and cash flows. The Company may in the future become involved in additional litigation in the ordinary course of business, including litigation that could be material to its business.

The Company considers all claims on a quarterly basis and, based on known facts, assesses whether potential losses are considered reasonably possible, probable and estimable. Based upon this assessment, the Company then evaluates disclosure requirements and whether to accrue for such claims in its consolidated financial statements. The Company records a provision for a liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These provisions are reviewed at least quarterly and are adjusted to reflect the impacts of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular case.

ENERGY RECOVERY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 9 — Income Taxes

For the nine months ended September 30, 2019, the Company recognized an income tax expense of \$1.2 million, which included a discrete tax benefit of \$1.0 million. The discrete tax benefit included a deferred tax benefit of \$1.0 million related to an increase in prior year U.S. federal research and development credits and a discrete tax benefit of \$0.4 million related to tax deductions from stock-based compensation, partially offset by deferred tax expense of \$0.4 million primarily related to a remeasurement of the Company's state deferred tax assets due to an adjustment to the Company's estimated blended state effective tax rate.

For the nine months ended September 30, 2018, the Company recognized an income tax benefit of \$10.1 million, which included a discrete tax benefit of \$12.4 million. The discrete tax benefit included a tax benefit of \$11.6 million related to the income tax effects of a tax election related to a change to the Company's international tax structure in Ireland that was effective in the second quarter of 2018. This resulted in a deferred tax asset related to tax expense recorded on earnings and profits under the U.S. Tax Cut and Jobs Act on deferred revenue not yet recognized under U.S. GAAP. In addition, the discrete tax benefit also included a \$0.6 million discrete tax benefit related to tax deductions from stock-based compensation.

The effective tax rate for the nine months ended September 30, 2019 and 2018 was 9.6% and (106.3)%, respectively. Excluding the discrete tax items, the effective tax rate for the nine months ended September 30, 2019 and 2018 was 17.7% and 24.0%, respectively. The effective tax rate for September 30, 2018 was adversely impacted by the full valuation allowance related to the losses in the Company's Irish operations.

Note 10 — Stock-based Compensation**Stock-based Compensation Expense**

The following table presents the stock-based compensation expense related to the fair value measurement of awards granted to employees by expense category and by type of award.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
	<i>(In thousands)</i>

Total stock-based compensation expense	\$ 1,354	\$ 1,042	\$ 4,425	\$ 4,226
Stock-based compensation expense by type of award:				
Options ⁽¹⁾	\$ 886	\$ 778	\$ 3,022	\$ 3,122
RSUs ⁽¹⁾	468	264	1,403	1,104
Total stock-based compensation expense	\$ 1,354	\$ 1,042	\$ 4,425	\$ 4,226

(1) Includes modification of equity awards. See "Modifications of Equity Awards" below.

The Company estimates forfeitures at the time of grant and revises those estimates periodically in subsequent periods if actual forfeitures differ from estimates. The Company uses historical data to estimate pre-vesting option forfeitures and records stock-based compensation expense only for those awards that are expected to vest. All stock-based payment awards are amortized on a straight-line basis over the requisite service periods of the awards, generally the vesting periods. If the Company's actual forfeiture rate is materially different from its estimate, the stock-based compensation expense could be significantly different from what the Company has recorded in the current period.

ENERGY RECOVERY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Modifications of Equity Awards

During the nine months ended September 30, 2019, the Company recorded additional stock-based compensation expense of \$0.3 million related to the modification of certain equity awards resulting from the Company's former Chairman of the Board's retirement from service on June 13, 2019.

During the nine months ended September 30, 2018, the Company recorded additional stock-based compensation expense of \$0.9 million primarily related to the modification of certain equity awards resulting from the Company's former President and Chief Executive Officer's resignation on February 24, 2018 and in consideration for his entering into a Settlement Agreement and Release.

Unamortized Stock-Based Compensation Costs

Stock-based compensation costs related to unvested stock options and RSUs will generally be amortized on a straight-line basis over the remaining average service period of each award. The following table presents the unamortized compensation costs and weighted average service period of all unvested outstanding awards as of September 30, 2019.

	Unamortized Compensation Costs	Weighted Average Service Period
	<i>(In thousands)</i>	<i>(In years)</i>

Note 11 — Business Segment and Geographic Information**Business Segments**

The Company is an energy solutions provider to industrial fluid flow markets worldwide. The Company manufactures and sells high-efficiency energy recovery devices ("ERDs") and pumps as well as related products and services. The Company's chief operating decision-maker ("CODM") is the chief executive officer.

ENERGY RECOVERY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company's reportable segments consist of the Water Segment and the Oil & Gas Segment. These segments are based on the industries in which the products are sold, the type of products sold and the related products and services. The Water Segment consists of revenue associated with products sold for use in reverse osmosis desalination as well as the related identifiable expenses. The Oil & Gas Segment consists of revenue associated with products sold for use in gas processing, chemical processing and hydraulic fracturing as well as license and development revenue associated therewith. Operating income (loss) for each segment excludes other income and expenses and certain corporate expenses managed outside the operating segment such as income taxes and other separately managed general and administrative expenses not related to the identified segments. Assets and liabilities are reviewed at the consolidated level by the CODM and are not accounted for by segment. The CODM allocates resources to and assesses the performance of each operating segment using information about its revenue and operating income (loss).

The following tables present a summary of the Company's financial information by segment.

Geographic Segments

The following table presents the Company's product revenue by geographic locations. The geographic information includes product revenue from our domestic and international customers based on the customers' requested delivery locations, except for certain cases in which the customer directed the Company to deliver its products to a location that differs from the known ultimate location of use. In such cases, the ultimate location of use rather than the delivery location.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Product revenue by geographic location:				
United States	2 %	2 %	2 %	3 %
International	98 %	98 %	98 %	97 %

Item 2 — Management’s Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q for the three and nine months ended September 30, 2019 and 2018, including select information for the year ended December 31, 2018 and including “Part I, Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations” (the “MD&A”) and certain information incorporated by reference, contain forward-looking statements within the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements in this report include, but are not limited to, statements about our expectations, objectives, anticipations, plans, hopes, beliefs, intentions or strategies regarding the future.

Forward-looking statements represent our current expectations about future events, are based on assumptions, and involve risks and uncertainties. If the risks or uncertainties occur or the assumptions prove incorrect, then our results may differ materially from those set forth or implied by the forward-looking statements. Our forward-looking statements are not guarantees of future performance or events.

Words such as “expects,” “anticipates,” “aims,” “projects,” “intends,” “plans,” “believes,” “estimates,” “seeks,” variations of such words and similar expressions are also intended to identify such forward-looking statements. These forward-looking statements are subject to risks, uncertainties and assumptions that are difficult to predict; therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Readers are directed to risks and uncertainties identified under “Part II, Item 1A – Risk Factors” and elsewhere in this report for factors that may cause actual results to be different from those expressed in these forward-looking statements. Except as required by law, we undertake no obligation to revise or update publicly any forward-looking statements for any reason.

Forward-looking statements in this report include, without limitation, statements about the following:

- our belief that levels of gross profit margin are sustainable to the extent that volume grows, we experience a favorable product mix, pricing remains stable and we continue to realize cost savings through production efficiencies and enhanced yields;*
- our plan to improve our existing energy recovery devices and to develop and manufacture new and enhanced versions of these devices;*
- our belief that our PX[®] energy recovery devices are the most cost-effective energy recovery devices over time and will result in low life-cycle costs;*
- our belief that our turbocharger devices have long operating lives;*
- our objective of finding new applications for our technology and developing new products for use outside of desalination, including oil & gas applications;*
- our expectation that our expenses for research and development and sales and marketing may increase as a result of diversification into markets outside of desalination;*
- our expectation that we will continue to rely on sales of our energy recovery devices in the desalination market for a substantial portion of our revenue, and that new desalination markets, including the U.S., will provide revenue opportunities to us;*
- our ability to meet projected new product development dates, anticipated cost reduction targets or revenue growth objectives for new products;*
- our belief that we can commercialize the VorTeq[™] hydraulic fracturing system;*
- our belief that the VorTeq hydraulic fracturing system enables oilfield services (“OFS”) companies to migrate to more efficient pumping technology;*
- our belief that we will be able to enter into a long-term licensing agreement to bring the MTeq[™] solution to market;*
- our belief that customers will accept and adopt our new products;*
- our belief that our current facilities will be adequate for the foreseeable future;*
- our expectation that sales outside of the U.S. will remain a significant portion of our revenue;*
- the timing of our receipt of payment for products or services from our customers;*
- our belief that our existing cash balances and cash generated from our operations will be sufficient to meet our anticipated liquidity needs for the foreseeable future, with the exception of a decision to enter into an acquisition and/or fund investments in our latest technology arising from rapid market adoption that could require us to seek additional equity or debt financing;*
- our expectation that, as we expand our international sales, a portion of our revenue could be denominated in foreign currencies and the impact of changes in exchange rates on our cash and cash equivalents and operating results;*

Table of Contents

- our expectations of the impact of the U.S. Tax Cuts and Jobs Act (“Tax Act”);
- our belief that new markets will grow in the water desalination market;
- our expectation that we will be able to enforce our intellectual property rights;
- our expectation that the adoption of new accounting standards will not have a material impact on our financial position or results of operations;
- the outcome of proceedings, lawsuits, disputes and claims;
- the impact of losses due to indemnification obligations; and
- the impact of changes in internal control over financial reporting.

You should not place undue reliance on these forward-looking statements, which reflect management’s opinions only as of the date of the filing of this Quarterly Report on Form 10-Q. All forward-looking statements included in this document are subject to certain risks and uncertainties which could cause actual results to differ materially from those projected in the forward-looking statements, as disclosed from time to time in our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, as well as in our Annual Reports to Stockholders and in “Part II, Item 1A – Risk Factors” within this Quarterly Report on Form 10-Q. In preparing the MD&A below, we presume the readers have access to and have read the MD&A in our Annual Report on Form 10-K for the year ended December 31, 2018, pursuant to Instruction 2 to paragraph (b) of Item 303 of Regulation S-K. We assume no obligation to update any such forward-looking statements. It is important to note that our actual results could differ materially from the results set forth or implied by our forward-looking statements.

We provide our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, Proxy Statements, Forms 3, 4 and 5 filed by or on behalf of directors, executive officers and certain large shareholders, and any amendments to those documents filed or furnished pursuant to the Securities Exchange Act of 1934, free of charge on the Investor Relations section of our website, www.energyrecovery.com. These filings will become available as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC. From time to time, we may use our website as a channel of distribution of material company information.

We also make available in the Investor Relations section of our website our corporate governance documents including our code of business conduct and ethics and the charters of the audit, compensation and nominating and governance committees. These documents, as well as the information on the website, are not intended to be part of this Quarterly Report on Form 10-Q. We use the Investor Relations section of our website as a means of complying with our disclosure obligations under Regulation FD. Accordingly, you should monitor the Investor Relations section of our website in addition to following our press releases, SEC filings and public conference calls and webcasts.

Overview

Energy Recovery, Inc. (the “Company”, “Energy Recovery”, “we”, “our” and “us”) (Nasdaq: ERII) is an engineering-driven technology company that engineers, designs, manufactures and supplies solutions for industrial fluid flow processes. We offer technologies, which can drive meaningful, immediate cost savings and operational efficiencies for our customers. We currently operate in two markets - water and oil & gas - and our products are utilized in these markets to either recycle and convert wasted pressure energy into a usable asset or to preserve pumps that are subject to hostile processing environments.

Energy Recovery was incorporated in Virginia in 1992 and reincorporated in Delaware in 2001. Our headquarters and principal research, development and manufacturing facility is located in California. We are also constructing a new facility in Texas, which we expect to move into in the fourth quarter of 2019, which will serve as a new commercial development center for oil and gas field testing and training. We maintain direct sales offices and technical support centers in Europe, the Middle East and Asia.

Our reportable operating segments consist of the Water Segment and the Oil & Gas Segment. These segments are based on the industries in which the technology solutions are sold, the type of energy recovery device or other technology sold and the related solution and service.

Water Segment

Our Water Segment consists of revenues and expenses associated with solutions sold for use in seawater, brackish and wastewater reverse osmosis desalination. Our Water Segment revenue is principally derived from the sale of energy recovery devices (“ERDs”) and high-pressure and circulation pumps to our mega-project (“MPD”), original equipment manufacturer (“OEM”) and after-market (“AM”) channels. MPD sales are typically made to global engineering, procurement and construction (“EPC”) firms to build very large desalination plants worldwide. Our typical MPD sale consists of our PX Pressure Exchangers® (“PXs”), and each MPD sale represents revenue opportunities generally ranging from \$1 million to \$10 million. Our packaged solutions to OEMs include PXs, turbochargers, high-pressure pumps and circulation “booster” pumps for integration and use in small- to medium-sized desalination plants. OEM projects typically represent revenue opportunities of up to \$1 million. Our existing and expanding installed base of ERD and pump products in water plants has created a growing customer base comprised of plant operators and service providers who purchase spare parts, replacement parts and service contracts through our AM channel.

Oil & Gas Segment

Our Oil & Gas Segment consists primarily of license and development revenue and expenses associated with solutions for use in hydraulic fracturing, gas processing and chemical processing. In the past several years, we have invested significant research and development and sales and marketing costs to expand our business into pressurized fluid flow industries within the oil and gas industry.

Total Revenue

	Three Months Ended September 30,					
	2019		2018		Change	
	\$	% of Total Revenue	\$	% of Total Revenue	\$	%
	<i>(In thousands, except percentages)</i>					
Water	\$ 21,752	88%	\$ 18,464	83%	\$ 3,288	18 %
Oil & Gas	—	—%	114	1%	(114)	(100)%
Product revenue	21,752	88%	18,578	84%	3,174	17 %
License and development revenue	3,098	12%	3,661	16%	(563)	(15)%
Total revenue	\$ 24,850	100%	\$ 22,239	100%	\$ 2,611	12 %

Water Segment

During the three months ended September 30, 2019, compared to the three months ended September 30, 2018, Water Segment product revenue increased by \$3.3 million, or 18%, due primarily to an increase of shipments across all channels, including AM, MPD and OEM channels. Significant variability from quarter to quarter is typical, and year on year quarterly comparisons are not necessarily indicative of the trend for the full year due to these variations.

Oil & Gas Segment

During the three months ended September 30, 2019, compared to the three months ended September 30, 2018, Oil & Gas Segment product revenue decreased by \$0.1 million as there were no product sales in the third quarter of 2019. Our Oil & Gas Segment revenue, which is primarily comprised of license and development revenue that is calculated as a percentage of Cost to Total Cost, decreased by \$0.6 million, or 15%, in the three months ended September 30, 2019, compared to the three months ended September 30, 2018, due primarily to an increase in total estimated project costs

	Nine Months Ended September 30,					
	2019		2018		Change	
	\$	% of Total Revenue	\$	% of Total Revenue	\$	%
<i>(In thousands, except percentages)</i>						
Water	\$ 56,946	85%	\$ 46,628	82%	\$ 10,318	22 %
Oil & Gas	104	—%	414	1%	(310)	(75)%
Product revenue	57,050	85%	47,042	83%	10,008	21 %
License and development revenue	10,391	15%	9,768	17%	623	6 %
Total revenue	\$ 67,441	100%	\$ 56,810	100%	\$ 10,631	19 %

Water Segment

During the nine months ended September 30, 2019, compared to the nine months ended September 30, 2018, Water Segment product revenue increased by \$10.3 million, or 22%, due primarily to an increase of shipments across all channels, including AM, MPD and OEM channels.

Oil & Gas Segment

During the nine months ended September 30, 2019, compared to the nine months ended September 30, 2018, Oil & Gas Segment product revenue decreased by \$0.3 million. Our Oil & Gas Segment revenue, which is primarily comprised of license and development revenue, increased by \$0.6 million, or 6%, in the nine months ended September 30, 2019, compared to the nine months ended September 30, 2018, due primarily to an increase in total estimated project costs

Product Gross Profit and Gross Margin

Product gross profit represents our product revenue less our product cost of revenue. Our product cost of revenue consists primarily of raw materials, personnel costs (including stock-based compensation), manufacturing overhead, warranty costs, depreciation expense and manufactured components.

	Three Months Ended September 30,				
	2019		2018		Change
	Gross Profit (Deficit)	Gross Margin	Gross Profit (Deficit)	Gross Margin	
<i>(In thousands, except percentages)</i>					
Water	\$ 16,327	75.1%	\$ 13,613	73.7 %	\$ 2,714
Oil & Gas	—	—%	(57)	(50.0)%	57
Product gross profit and gross margin	\$ 16,327	75.1%	\$ 13,556	73.0%	\$ 2,771

During the three months ended September 30, 2019, compared to the three months ended September 30, 2018, product gross profit increased \$2.8 million, or 20.4%, due primarily to a \$2.7 million increase in Water Segment product gross profit related to higher volumes of products sold, in particular, increased sales of PXs, and favorable price and product mix.

Product gross margin increased by 210 basis points to 75.1% in the three months ended September 30, 2019, compared to 73.0% in the three months ended September 30, 2018. This increase was largely driven by favorable price and product mix, continued improvements in manufacturing efficiencies and higher production levels in the Water Segment to support increased demand.

	Nine Months Ended September 30,				
	2019		2018		Change
	Gross Profit (Deficit)	Gross Margin	Gross Profit (Deficit)	Gross Margin	
	<i>(In thousands, except percentages)</i>				
Water	\$ 41,291	72.5 %	\$ 32,909	70.6 %	\$ 8,382
Oil & Gas	(84)	(80.8)%	(179)	(43.2)%	95
Product gross profit and gross margin	\$ 41,207	72.2%	\$ 32,730	69.6%	\$ 8,477

During the nine months ended September 30, 2019, compared to the nine months ended September 30, 2018, product gross profit increased \$8.5 million, or 25.9%, due primarily to a \$8.4 million increase in Water Segment product gross profit related to higher volumes of products sold, in particular, increased sales of PXs, and favorable price and product mix.

Product gross margin increased by 260 basis points to 72.2% in the nine months ended September 30, 2019, compared to 69.6% in the nine months ended September 30, 2018. This increase was largely driven by favorable price and product mix, continued improvements in manufacturing efficiencies and higher production levels in the Water Segment to support increased demand.

Operating Expenses

	Three Months Ended September 30, 2019			Three Months Ended September 30, 2018		
	Water	Oil & Gas	Total	Water	Oil & Gas	Total
	<i>(In thousands)</i>					
Operating expenses						
General and administrative	\$ 359	\$ 431	\$ 790	\$ 470	\$ 373	\$ 843
Sales and marketing	1,850	92	1,942	1,435	335	1,770
Research and development	886	5,667	6,553	545	3,713	4,258
Amortization of intangibles	156	0	156	158	0	158
Total operating expenses	\$ 3,251	\$ 6,190	9,441	\$ 2,608	\$ 4,421	7,029
Corporate operating expenses			5,413			4,538
Total operating expenses			\$ 14,854			\$ 11,567

Operating Expenses - Segment

Water Segment operating expenses were \$3.3 million for the three months ended September 30, 2019, compared to \$2.6 million for the three months ended September 30, 2018, an increase of \$0.6 million, or 25%, due primarily to higher sales and marketing (“S&M”) expenses of \$0.4 million and research and development (“R&D”) expenses of \$0.3 million, partially offset by lower general and administrative (“G&A”) expenses of \$0.1 million. Our higher S&M expenses are due primarily to higher employee headcount and personnel-related costs. The higher R&D expense is due primarily to both the expansion of our current product offering as well as to the improvement of existing technologies.

Oil & Gas Segment operating expenses were \$6.2 million for the three months ended September 30, 2019, compared to \$4.4 million for the three months ended September 30, 2018, an increase of \$1.8 million, or 40%, due primarily to an increase in R&D expense of \$2.0 million, due primarily to higher testing supplies expenditures, employee headcount and personnel-related expenses and equipment depreciation, partially offset by lower S&M costs of \$0.2 million.

Corporate operating expenses were \$5.4 million for the three months ended September 30, 2019, compared to \$4.5 million for the three months ended September 30, 2018, an increase of \$0.9 million, or 19%, due primarily to higher employee headcount and other personnel-related expenses, partially offset by lower professional services costs.

Total Operating Expenses

Total operating expenses were \$14.9 million for the three months ended September 30, 2019, compared to \$11.6 million for the three months ended September 30, 2018, an increase \$3.3 million, or 28%, due primarily to increases of \$2.4 million in R&D expenses, \$0.5 million in S&M expenses, and \$0.4 million in G&A expenses. Total operating expenses were 60% of total revenue for the three months ended September 30, 2019, as compared to 52% of total revenue for the three months ended September 30, 2018, an increase of 800 basis points.

G&A expenses were \$5.7 million for the three months ended September 30, 2019, compared to \$5.3 million for the three months ended September 30, 2018, an increase of \$0.4 million, or 8%, due primarily to an increase in employee headcount and other personnel-related costs of \$0.5 million and other costs of \$0.2 million, partially offset by lower professional services costs of \$0.3 million.

S&M expenses were \$2.4 million for the three months ended September 30, 2019, compared to \$1.9 million for the three months ended September 30, 2018, an increase of \$0.5 million, or 26%, due primarily to an increase in employee headcount and other personnel-related costs of \$0.4 million and marketing costs of \$0.1 million.

R&D expenses were \$6.6 million for the three months ended September 30, 2019, compared to \$4.3 million for the three months ended September 30, 2018, an increase of \$2.4 million, or 55%, due primarily to higher testing supplies expenditures of \$1.1 million, depreciation expense of certain test equipment of \$0.7 million, an increase in employee headcount and personnel-related costs of \$0.5 million, and facility costs of \$0.1 million.

Amortization of intangible assets is related to finite-lived intangible assets acquired as a result of our purchase of Pump Engineering, LLC in December 2009. Amortization expense in the three months ended September 30, 2019, compared to the three months ended September 30, 2018, did not materially change.

	Nine Months Ended September 30, 2019			Nine Months Ended September 30, 2018		
	Water	Oil & Gas	Total	Water	Oil & Gas	Total
	<i>(In thousands)</i>					
Operating expenses						
General and administrative	\$ 1,456	\$ 1,207	\$ 2,663	\$ 1,441	\$ 1,395	\$ 2,836
Sales and marketing	5,058	674	5,732	4,243	997	5,240
Research and development	2,794	13,335	16,129	1,019	10,753	11,772
Amortization of intangibles	469	—	469	474	—	474
Total operating expenses	\$ 9,777	\$ 15,216	24,993	\$ 7,177	\$ 13,145	20,322
Corporate operating expenses			15,330			13,617
Total operating expenses			\$ 40,323			\$ 33,939

Operating Expenses - Segment

Water Segment operating expenses were \$9.8 million for the nine months ended September 30, 2019, compared to \$7.2 million for the nine months ended September 30, 2018, an increase of \$2.6 million, or 36%, due primarily to a \$1.8 million increase in R&D expense and a \$0.8 million in S&M expense. Our higher S&M expenses are due primarily to higher employee headcount and personnel-related costs. The higher R&D expense is due primarily to both the expansion of our current product offering as well as to the improvement of existing technologies.

Oil & Gas Segment operating expenses were \$15.2 million for the nine months ended September 30, 2019, compared to \$13.1 million for the nine months ended September 30, 2018, an increase of \$2.1 million, or 16%, due primarily to an increase in R&D expense of \$2.6 million, partially offset by decreases of \$0.2 million and \$0.3 million in G&A and S&M expenses, respectively. The increase in expenditures is due primarily to the commercialization of new technologies.

Corporate operating expenses were \$15.3 million for the nine months ended September 30, 2019, compared to \$13.6 million for the nine months ended September 30, 2018, an increase of \$1.7 million, or 13%, due primarily to higher employee headcount and personnel-related expenses, partially offset by lower professional services costs and equipment depreciation expenses.

Total Operating Expenses

Total operating expenses were \$40.3 million for the nine months ended September 30, 2019, compared to \$33.9 million for the nine months ended September 30, 2018, an increase of \$6.4 million, or 19%, due primarily to increases of \$4.6 million in R&D expense, \$1.1 million in S&M expense, and \$0.8 million in G&A expense. Total operating expenses were 60% of total revenue for both of the nine months ended September 30, 2019 and 2018.

G&A expenses were \$16.8 million for the nine months ended September 30, 2019, compared to \$16.0 million for the nine months ended September 30, 2018, an increase of \$0.8 million, or 5%, due primarily to an increase in employee headcount and other personnel-related costs of \$1.3 million, partially offset by lower professional services costs of \$0.3 million, equipment depreciation of \$0.1 million, and other costs of \$0.1 million.

S&M expenses were \$6.7 million for the nine months ended September 30, 2019, compared to \$5.6 million for the nine months ended September 30, 2018, an increase of \$1.1 million, or 19%, due primarily to an increase in employee headcount and other personnel-related costs of \$0.7 million, outside commission costs of \$0.3 million, and marketing costs of \$0.2 million, partially offset by lower other costs of \$0.1 million.

R&D expenses were \$16.4 million for the nine months ended September 30, 2019, compared to \$11.8 million for the nine months ended September 30, 2018, an increase of \$4.6 million, or 39%, due primarily to higher testing supplies expenditures of \$1.8 million, higher employee headcount and personnel-related costs of \$1.5 million, higher depreciation expense of certain test equipment of \$0.9 million, and loss on disposal of assets of \$0.4 million.

Amortization of intangible assets is related to finite-lived intangible assets acquired as a result of our purchase of Pump Engineering, LLC in December 2009. Amortization expense in the nine months ended September 30, 2019, compared to the nine months ended September 30, 2018, did not materially change.

Other Income, Net

	Three Months Ended September 30,			
	2019		2018	
	\$	% of Total Revenue	\$	% of Total Revenue
	<i>(In thousands, except percentages)</i>			
Other income:				
Interest income	\$ 500	2.0%	\$ 369	1.7%
Other non-operating expense, net	(5)	—%	(22)	(0.1)%
Total other income, net	\$ 495	2.0%	\$ 347	1.6%

Total other income, net, increased \$0.1 million during the three months ended September 30, 2019, compared to the three months ended September 30, 2018, due primarily to an increase in interest income.

	Nine Months Ended September 30,			
	2019		2018	
	\$	% of Total Revenue	\$	% of Total Revenue
	<i>(In thousands, except percentages)</i>			
Other income:				
Interest income	\$ 1,551	2.3%	\$ 1,043	1.8%
Interest expense	—	0.0%	(1)	0.0%
Other non-operating expense, net	(77)	(0.1)%	(66)	(0.1)%
Total other income, net	\$ 1,474	2.2%	\$ 976	1.7%

Total other income, net, increased \$0.5 million during the nine months ended September 30, 2019, compared to the nine months ended September 30, 2018, due primarily to an increase in interest income.

Income Taxes

For the nine months ended September 30, 2019, we recognized an income tax expense of \$1.2 million, which included a discrete tax benefit of \$1.0 million. The discrete tax benefit included a deferred tax benefit of \$1.0 million related to an increase in prior year U.S. federal research and development credits and a discrete tax benefit of \$0.4 million related to tax deductions from stock-based compensation, partially offset by deferred tax expense of \$0.4 million primarily related to a remeasurement of our state deferred tax assets due to an adjustment to our estimated blended state effective tax rate.

For the nine months ended September 30, 2018, we recognized an income tax benefit of \$10.1 million, which included a discrete tax benefit of \$12.4 million. The discrete tax benefit included a tax benefit of \$11.6 million related to the income tax effects of a tax election related to a change to our international tax structure in Ireland that was effective in the second quarter of 2018. This resulted in a deferred tax asset related to tax expense recorded on earnings and profits under the U.S. Tax Cut and Jobs Act on deferred revenue not yet recognized under U.S. GAAP. In addition, the discrete tax benefit also included a \$0.6 million discrete tax benefit related to tax deductions from stock-based compensation.

The effective tax rate for the nine months ended September 30, 2019 and 2018 was 9.6% and (106.3)%, respectively. Excluding the discrete tax income tax items, the effective tax rate for the nine months ended September 30, 2019 and 2018 was 17.7% and 24.0%, respectively. The effective tax rate for September 30, 2018 was adversely impacted by the full valuation allowance related to the losses in our Irish operations.

Liquidity and Capital Resources

Overview

Our primary source of cash for funding our operations and capital expenditures has been proceeds from customer payments for our products and services and the issuance of common stock.

As of September 30, 2019, our principal sources of liquidity consisted of: (i) unrestricted cash and cash equivalents of \$29.7 million, (ii) short-term investments of \$59.9 million that are primarily invested in marketable debt instruments such as corporate notes and bonds and U.S. Treasury securities and (iii) accounts receivable, net of allowances of \$20.8 million. We invest cash not needed for current operations predominantly in high-quality, investment-grade, marketable debt instruments with the intent to make such funds available for operating purposes as needed.

As of September 30, 2019 and December 31, 2018, we had \$1.1 million and \$4.1 million, respectively, of short-term contract assets which represents unbilled receivables. In the Water Segment, we had contract assets of \$1.1 million pertaining to customer contractual holdback provisions, pursuant to which we will invoice the final retention payment(s) due under certain sales contracts in the next 12 months as of September 30, 2019. The customer holdbacks represent amounts intended to provide a form of security for the customer and, accordingly, these contract assets have not been discounted to present value. In the Oil & Gas Segment, there were no unbilled project costs at September 30, 2019.

Loan Agreements

On January 27, 2017, we entered into a loan and pledge agreement (the "Loan and Pledge Agreement") with a financial institution. The Loan and Pledge Agreement provides for a committed revolving credit line of \$16.0 million and an uncommitted revolving credit line of \$4.0 million. Under the Loan and Pledge Agreement, we are allowed to borrow and request letters of credit against the eligible assets held from time to time in the pledged account maintained with the financial institution. Stand-by letters of credit ("SBLCs") are secured by pledged U.S. investments and there is no cash collateral balance required. SBLCs are subject to fees, in an amount equal to 0.7% per annum of the face amount of the letter of credit, that are payable quarterly and are non-refundable. Revolving loans incur interest per annum at a base rate equal to the LIBOR rate plus 1.5%. Any default bears the aforementioned interest rate plus an additional 2%. The unused portion of the credit line is subject to a fee equal to the product of 0.2% per annum multiplied by the difference, if positive, between \$16.0 million and the average daily balance of all advances under the committed facility plus aggregate average daily undrawn amounts of all letters of credit issued under the committed facility during the immediately preceding month or portion thereof.

The Loan and Pledge Agreement was amended on March 17, 2017 to increase the amount of allowable SBLCs held with other financial institutions from \$4.1 million to \$5.1 million.

Table of Contents

The Loan and Pledge Agreement was further amended on March 30, 2018 to extend the termination date of the Loan and Pledge Agreement from March 31, 2018 to March 31, 2020. The covenants of the Loan and Pledge Agreement were further amended on August 24, 2018 to permit us to incur indebtedness owed to a foreign subsidiary in an aggregate amount not to exceed \$66.0 million, which amount is subordinated to any amounts outstanding under the Loan and Pledge Agreement.

The Loan and Pledge Agreement was subsequently amended on April 8, 2019 to extend the term of any Letter of Credit to not exceed two years, and to permit us to issue SBLCs up to one year past the expiration date of the loan agreement. On April 8, 2019 and on April 23, 2019, the Loan and Pledge Agreement was amended to clarify certain additional terms.

The Loan and Pledge Agreement was again amended on June 17, 2019 to extend the termination date to June 30, 2022 and limit the term of any SBLC to three years. The Loan and Pledge Agreement was amended to clarify certain additional terms.

As of September 30, 2019 and December 31, 2018, no debt was outstanding under the Loan and Pledge Agreement, however, the SBLCs are deducted from the total revolving credit line. See our 2018 Annual Report on Form 10-K and Note 7, "Lines of Credit," of the Notes to Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q.

Stand-By Letters of Credit

As of September 30, 2019, we had SBLCs with various financial institutions totaling \$11.2 million whereby we are required to maintain a U.S. investment balance of \$11.2 million. SBLCs are subject to fees based on the amount of the letter of credit that are payable quarterly and are non-refundable.

Cash Flows

	Nine Months Ended September 30,	
	2019	2018
	<i>(In thousands)</i>	
Net cash provided by operating activities	\$ 503	\$ 9,749
Net cash provided by (used in) investing activities	1,821	(150)
Net cash provided by (used in) financing activities	5,335	(6,250)
Effect of exchange rate differences on cash and cash equivalents	—	14
Net change in cash, cash equivalents and restricted cash	<u>\$ 7,659</u>	<u>\$ 3,363</u>

Cash Flows from Operating Activities

Net cash provided by operating activities is primarily generated by net income and is adjusted for certain non-cash items and changes in assets and liabilities.

Cash provided by operating activities was lower in the nine months ended September 30, 2019, compared to the cash provided by operating activities for the nine months ended September 30, 2018, due primarily to cash used for operating asset and liabilities of \$12.7 million, partially offset by cash provided by net income adjusted for certain non-cash items of \$3.5 million. Cash used for assets and liabilities in the nine months ended September 30, 2019, compared to the cash used for the nine months ended September 30, 2018, was higher due primarily to accounts receivable of \$15.1 million related to the timing of customer invoicing and collections, inventory of \$1.0 million, and contract liabilities of \$0.3 million, partially offset by cash provided from accounts payable of \$2.1 million due to the timing of the payment of vendor invoices, as well as prepaid expenses of \$0.8 million and income taxes payable of \$0.7 million.

Due to the project driven, non-cyclical nature of our business, operating cash flow can fluctuate significantly from quarter to quarter due to the timing of receipts of large project orders. Operating cash flow may be negative in one quarter and significantly positive in the next, consequently individual quarterly results and comparisons may not necessarily indicate a significant trend - either positive or negative. Similarly, the nature and timing of investing activities and financing activities may be linked to available cash and the timing of events outside those of operating activities. Therefore, it may be difficult to derive meaning directly from quarterly comparisons of cash flow.

Cash Flows from Investing Activities

Net cash provided by (used in) investing activities primarily relates to maturities and purchases of marketable securities, capital expenditures supporting our growth and changes in our restricted cash used to collateralize our SBLCs and other contingent considerations. Our investments in marketable securities are structured to preserve principal and liquidity while at the same time maximizing yields without significantly increasing risk.

Cash provided by investing activities was higher by \$2.0 million in the nine months ended September 30, 2019, compared to cash used in investing activities for the nine months ended September 30, 2018, due primarily to higher sales and maturities of investments net of purchases (due to the nature and timing of investment activities) of \$5.4 million, partially offset by a higher use of cash for capital expenditures of \$3.5 million.

Cash Flows from Financing Activities

Net cash provided by (used in) financing activities primarily relates to the issuance of equity typically from stock-based compensation and equity buy-backs.

Cash provided by financing activities was higher by \$11.6 million in the nine months ended September 30, 2019, compared to cash used in financing activities for the nine months ended September 30, 2018, due primarily to the use of \$10.0 million cash in the first nine months of 2018 for the repurchase of common stock that was not undertaken in the nine months ended September 30, 2019, and cash received from issuance of common stock under our employee stock-based program of \$1.6 million.

Liquidity and Capital Resource Requirements

We believe that our existing resources and cash generated from our operations will be sufficient to meet our anticipated capital requirements for at least the next 12 months. However, we may need to raise additional capital or incur additional indebtedness to continue to fund our operations or to support acquisitions in the future and/or to fund investments in our latest technology arising from rapid market adoption, needs that could require us to seek additional equity or debt financing. Our future capital requirements will depend on many factors including the continuing market acceptance of our products, our rate of revenue growth, the timing of new product introductions, the expansion of our research and development, manufacturing and sales and marketing activities, the timing and extent of our expansion into new geographic territories and the amount and timing of cash used for stock repurchases. In addition, we may enter into potential material investments in, or acquisitions of, complementary businesses, services or technologies in the future which could also require us to seek additional equity or debt financing. Should we need additional liquidity or capital funds, these funds may not be available to us on favorable terms, or at all.

Off-Balance Sheet Arrangements

During the periods presented, we did not have any relationships with unconsolidated entities or financial partnerships such as entities often referred to as structured finance or special purpose entities which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Recent Accounting Pronouncements

Refer to Note 1, "Description of Business and Significant Accounting Policies," of the Notes to Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q.

Item 3 — Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk may be found primarily in two areas, foreign currency and interest rates.

Foreign Currency Risk

Our foreign currency exposures are due to fluctuations in exchange rates for U.S. dollar ("USD") versus the British Pound, Saudi Riyal, United Arab Emirates Dirham, Euro, Chinese Yuan, Indian Rupee and Canadian Dollar. Changes in currency exchange rates could adversely affect our consolidated operating results or financial position.

Our revenue contracts have been denominated in USD. At times, our international customers may have difficulty in obtaining USD to pay our receivables, thus increasing collection risk and potential doubtful account expense. As we expand our international sales, a portion of our revenue could be denominated in foreign currencies. As a result, our cash and cash equivalents and operating results could be increasingly affected by changes in exchange rates.

In addition, we pay many vendors in foreign currency and, therefore, are subject to changes in foreign currency exchange rates. Our international sales and service operations incur expense that is denominated in foreign currencies. This expense could be materially affected by currency fluctuations. Our international sales and services operations also maintain cash balances denominated in foreign currencies. To decrease the inherent risk associated with translation of foreign cash balances into our reporting currency, we do not maintain excess cash balances in foreign currencies.

We have not hedged our exposure to changes in foreign currency exchange rates because expenses in foreign currencies have been insignificant to date and exchange rate fluctuations have had little impact on our operating results and cash flows.

Interest Rate Risk and Credit Risk

We have an investment portfolio of fixed-income marketable debt securities including amounts classified as cash equivalents, and short- and long-term investments. The primary objective of our investment activities is to preserve principal and liquidity while at the same time maximizing yields without significantly increasing risk. We invest primarily in investment-grade short-term and long-term debt instruments of high-quality corporate issuers and instruments of the U.S. government and its agencies. These investments are subject to counter-party credit risk. To minimize this risk, we invest pursuant to an investment policy approved by our Board. The policy mandates high credit rating requirements and restricts our exposure to any single corporate issuer by imposing concentration limits.

At September 30, 2019, our investments totaled approximately \$67.5 million. These investments were presented in short-term investments and long-term investments on our Condensed Consolidated Balance Sheets as of September 30, 2019. These investments are subject to interest rate fluctuations and will decrease in market value if interest rates increase. To minimize the exposure due to adverse shifts in interest rates, we maintain investments with an average maturity of less than seven months. A hypothetical 1% increase in interest rates would have resulted in an approximately \$0.4 million decrease in the fair value of our fixed-income debt securities as of September 30, 2019.

Item 4 — Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our President and Chief Executive Officer and our Chief Financial Officer, have evaluated the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934 as of the end of the period covered by this report.

Based on that evaluation, our President and Chief Executive Officer and our Chief Financial Officer have concluded that, as of September 30, 2019, our disclosure controls and procedures are effective.

Changes in Internal Controls

There were no changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1 — Legal Proceedings

Note 16, “Litigation,” of our Annual Report on Form 10-K filed with the SEC on March 7, 2019, as amended on March 12, 2019, provides information on certain litigation in which we are involved.

For an update on the litigation matters previously disclosed in our Form 10-K, see the discussion in Note 8, “Commitments and Contingencies – Litigation,” of the Notes to Condensed Consolidated Financial Statements of this Quarterly Report on Form 10-Q, which discussion is incorporated by reference into this Item 1.

Item 1A — Risk Factors

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A, in our Annual Report on Form 10-K filed on March 7, 2019, as amended on March 12, 2019.

Item 2 — Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3 — Defaults Upon Senior Securities

None.

Item 4 — Mine Safety Disclosures

Not applicable.

Item 5 — Other Information

None.

Item 6 — Exhibits

A list of exhibits filed or furnished with this report, or incorporated herein by reference is found in the Exhibit Index below.

PURSUANT TO EXCHANGE ACT RULE 13a-14(a) OR 15d-14(a), AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES OXLEY ACT OF 2002**

I, Chris Gannon, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Energy Recovery, Inc. for the period ended September 30, 2019;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
